

DUNGEONS & LASERS[®]

DWARVEN MINE HALF-HEIGHT WALLS

The scroll of assembly

HOW TO BUILD?

1

Cut the elements from the sprue. We recommend a dedicated cutter tool.

2

Make sure to remove all kinds of sprue leftovers from the elements.

3

Connect floors and walls using provided Floor Clips and Wall Clips.

4

Assemble the doors.

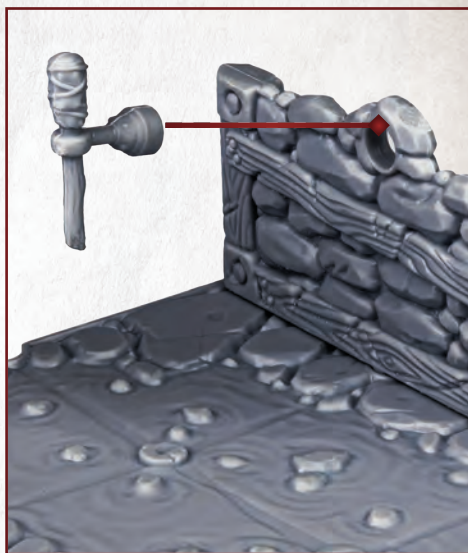

5

You can place doors and walls in the middle of the tiles, too!

6

Place torches in holes in the walls for some light.

7

Roll for initiative and have fun!
